LAUNCHPAD

IDLA offerers enrichment and intervention classes in ELA for grades K-5!

Wherever your students are, our Launchpad Elementary courses aim to help them soar to higher levels of achievement and foster a love of learning!

WHO: Launchpad is for students in grades K-5. Students are split into grade-level bands of K-2 and 3-5 but each student gets personalized instruction at their specific level and area of need.

HOW: Students will work in iStation for 20-30 minutes per day on highly engaging, individualized lessons. The IDLA teacher reviews progress and then meets synchronously with small groups of students for up to 5 hours a week to provide additional instruction in skills aligned to what students have learned in their independent practice time. Synchronous lessons will be aligned to student needs but also include time for students to enjoy reading and explore the world of numbers, share with their teachers, and interact with their friends. Launchpad classes are staffed by an Idaho Certified Elementary Teacher and principal at IDLA and are made successful through a strong partnership with local school staff.

WHAT: Districts must provide or ensure the student has a PC, Macbook or Chromebook. Phones and tablets are not compatible.

ELA LAUNCHPAD
- ELA Launchpad 1 is a reading literacy intervention and enrichment course for students in grades K-2
- ELA Launchpad 2 is a reading literacy intervention and enrichment course for students in grades 3-5

COST

$30 per enrollment

CUSTOM SESSION

Launchpad operates as a Custom Session only.

Districts can request a schedule that suits their needs within a 6-16 week time frame. Idaho Digital Learning will make every attempt to accommodate custom session requests for a minimum of 12 students.

To request a Custom Session, go to https://www.idahodigitallearning.org/site-coordinators/resources/
