IDAHO DIGITAL LEARNING ALLIANCE

Launchpad

IDLA offers enrichment and intervention classes in ELA for grades K-5!

Wherever your students are, our Launchpad Elementary courses aim to help them soar to higher levels of achievement and foster a love of learning!

Who

Launchpad is for students in grades K-5. Students are split into grade-level bands of K-2 and 3-5 but each student gets personalized instruction at their specific level and area of need.

How

IDLA Launchpad offers live, engaging reading instruction led by Idaho-certified elementary teachers and principals. Through Zoom, students receive targeted support to close reading skill gaps or extend their background knowledge and comprehension skills using evidence-based strategies grounded in the Science of Reading.

With four hours of live instruction each week, Launchpad fits flexibly into your district's already running RTi schedule—perfect for Tier 2 and Tier 3 interventions or enrichment for high-achieving readers.

Students build confidence, strengthen comprehension, and enjoy learning alongside peers in a positive, interactive environment. Progress is carefully monitored through Amira/Istation to ensure every learner grows.

Partner with Launchpad and watch your readers soar!

What

Districts must provide or ensure the student has a PC, Macbook, iPad, or Chromebook. Phones are not compatible.

ELA Launchpad

- ELA Launchpad 1 is a reading literacy intervention and enrichment course for students in grades K-2
- ELA Launchpad 2 is a reading literacy intervention and enrichment course for students in grades 3-5

Launchpad operates as a Custom Session only.

Districts can request a schedule that suits their needs within a 6-16 week time frame. Idaho Digital Learning will make every attempt to accommodate custom session requests for a minimum of 12 students.
