

CREDIT RECOVERY 2026-2027

Idaho Digital Learning Alliance has developed a credit recovery program to meet the unique learning needs of Idaho’s credit recovery students.

WHEN?

- Registration opens April 1, 2026

HOW MUCH?

- \$40/course for public schools, \$445/class for private and virtual schools
- Fees are subject to change at any time due to operational costs, funding, or other factors. Any updates will be communicated through official channels.
- To register, contact your school’s site coordinator.

Credit recovery courses are offered on an 8- to 9-week schedule with start and end dates that allow students to complete a semester credit in approximately half the time of a traditional schedule. Credit Recovery is designed using an approach that combines IDLA content and teachers with a district-led, targeted intervention program. IDLA provides the course content, a web-based learning management system to deliver content and instruction, teachers, and internal support staff to districts. Districts provide local personnel to support students with targeted intervention support (such as placement guidance, support, and monitoring), individualized support, physical and/or virtual technical access to courses, and transcription of credits. Credit recovery courses address all required Idaho State Standards and are NCAA-approved.
